Cookie Policy

This Rashap.com website uses cookies and similar tools to improve the functionality and performance of this site and Rashap.com services, to understand how you use Rashap.com services, and to provide you with tailored ads and other recommendations. Third parties may also place cookies through this website for advertising, tracking, and analytics purposes. These cookies enable us and third parties to track your Internet navigation behavior on our website and potentially off of our website. By continuing your use of this website, you consent to this use of cookies and similar technologies.

At Rashap.com, we believe in being clear and open about how we collect and use data related to you. This Cookie Policy applies to any Rashap.com product or service that links to this policy or incorporates it by reference. We use cookies and similar technologies such as pixels, local storage (collectively referred to in this policy as "cookies") to collect and use data as part of our Services, as defined in our Privacy Policy.

This document contains the main principles of our Cookie Policy. You can find the full version of our Cookie Policy here (RU).

What technologies are used?

Type of technology	Description
Cookies	A cookie is a small file placed onto your device that enables Rashap.com features and functionality. Any browser visiting our sites may receive cookies from us or cookies from third parties such as our customers, partners or service providers. We use two types of cookies: persistent cookies and session cookies. A persistent cookie lasts beyond the current session and is used for many purposes, such as recognizing you as an existing user, so it's easier to return to Rashap.com and interact with our Services without signing in again. Since a persistent cookie stays in your browser, it will be read by Rashap.com when you return to our site. Session cookies last only as long as the session (usually the current visit to a website or a browser session).
Pixels	A pixel is a tiny image that may be embedded within web pages and emails, requiring a call (which provides device and visit information) to our servers in order for the pixel to be rendered in those web pages and emails. We use

Type of technology	Description
	pixels to learn more about your interactions with email content or web content, such as whether you interacted with ads or posts. Pixels can also enable us and third parties to place cookies on your browser.
Local storage	Local storage enables a website or application to store information locally on your device(s). Local storage may be used to improve the Rashap.com experience, for example, by enabling features, remembering your preferences and speeding up site functionality.
Other similar technologies	We also use other tracking technologies, such as mobile advertising IDs and tags for similar purposes as described in this Cookie Policy.

Our cookie tables list some of the cookies that are used by us and third parties as part of our Services. Please note that these tables may be updated from time to time to provide you with the latest information. Current tables can be viewed here.

What are these technologies used for?

Below we describe the ways in which we may use cookies.

Purpose	Description
Authentication	We use cookies to recognize you when you visit our Services. If you're signed into Rashap.com, cookies help us show you the right information and personalize your experience in line with your settings.
Security	We use cookies to make your interactions with our Services faster, more secure and to help us detect malicious activity and violations of our Terms and Conditions.

Purpose	Description
Preferences, features and services	We use cookies to enable the functionality of our Services, and provide you with features, insights and customized content. We also use these technologies to remember information about your browser and your preferences.
Functional	We use cookies to improve your experience on our Services.
Analytics and research	Cookies help us learn more about how well our Services perform in different locations. We or our service providers use cookies to understand, improve, and research products, features and services, including as you navigate through our site or when you access Rashap.com from other sites, applications or devices.

What third parties use these technologies in connection with our Services?

Third parties such as our customers, partners and service providers may use cookies in connection with our Services.

Third parties may use cookies to help us to provide our Services. We may also work with third parties for our own marketing purposes and to enable us to analyze and research our Services.

Our partners and other services that may be related to the operation of the website (the list may be supplemented):

- metrika.yandex.ru
- webmaster.yandex.ru
- google-analytics.com

Your Choices

You have choices on how Rashap.com uses cookies. Please note that if you limit the ability of Rashap.com to use cookies, you may worsen your overall user experience, since it may no longer be as personalized to you. It may also stop you from saving customized settings like login information.

Browser Controls

Most browsers allow you to control cookies through their settings, which may be adapted to reflect your consent to the use of cookies. Further, most browsers also enable you to review and erase cookies, including Rashap.com cookies. To learn more about browser controls, please consult the documentation that your browser manufacturer provides.

Manage Cookie Preferences

Where required, we enable you to reject the use of certain cookies for purposes such as advertising and analytics and research, by visiting your cookie settings, without affecting the lawfulness of processing based on your consent before its withdrawal. For members, your settings can be found [here](#) or [here](#). For guests, your settings can be found [here](#). You can change your preferences at any time by visiting these settings.

Some cookies can't be disabled because the site won't work properly without them.

What is Do Not Track (DNT)?

DNT is a concept that has been promoted by regulatory agencies such as the U.S. Federal Trade Commission (FTC), for the Internet industry to develop and implement a mechanism for allowing Internet users to control the tracking of their online activities across websites by using browser settings. As such, Rashap.com does not generally respond to "do not track" signals.
